

CAREER AWAKENING PROGRAMME

As all are well aware that after passing 10th or 12th always a question arises in

mind of each and every student that What to do? Where to study? What to Study? What will be the outcome of this & that? This situation occurs due to lack of knowledge or proper career guidance/counseling. Hence to address this burning issue RPES under guidance of its advisors conducted Lectures and Counselling Sessions in Govt. Girls Sen. Secondary School, Pahladpur Kidoli (Sonepat) in the month of September, 2015 to mark International Literacy Day. The same lecture was organised in December, 2015 in ITI Hassangarh (Rohtak). This effort was to address the query arising out their mind and provide them various options which are available in their area or in the country as well and make them understand and choose the better one as per their interest to go ahead or to opt for further studies. A printed folder has also been made available to the students to have it for further use and extend this to their peers or elder brothers & sisters.
