

## VILLAGE DEVELOPMENT PLAN\_SAGY

Prime Minister of India Sh. Narendra Modi gave a commitment on behalf of his colleagues in the Parliament to share his dream of Adarsh Grams as the nucleus of health, cleanliness, greenery and cordiality within the community in form of Saansad Adarsh Gram Yojana (SAGY) in 2014. Under Saansad Adarsh Gram Yojana (SAGY) each Member of Parliament have to make one village of his or her constituency as a Model Village by October, 2016 and two more model villages by 2019. The Scheme carries plan that gives direction and meaning to the activities undertaken under SAGY. The Scheme is unique and transformative as it has a holistic approach towards development. It envisages

integrated development of the village across multiple areas such as agriculture, health, education, sanitation, environment, livelihoods etc. It not only seeks to provide physical infrastructure and access to basic amenities but also improve the standard of living, enrich social capital and build community spirit. Hence to develop village a comprehensive village plan has to be prepared to transform it into an actual Adarsh. RPES was selected for preparation of Village Development Plan of Islamgarh district Jhajjar adopted by MP, Rohtak under SAGY scheme. As per SAGY norms, District Administration has done Systematic Environment Creation & Social Mobilization with Awareness Activities. First Stage Activities, Base Line Survey with various mappings & situational analysis has already been done. RPES had done Finalization of needs, collecting data from line departments, Preparation of Draft Village Development Plan as per SAGY Village Development Plan framework and tracking of VDP in statement I & II.
